

ORNL Workshop on **FRONTIERS OF STRUCTURAL MATERIALS RESEARCH**

August 27–29, 2019

Participate and shape the future of structural materials research at Oak Ridge National Laboratory.

Workshop Purpose:

Review current scientific and technical challenges in structural materials, discuss new research opportunities, and identify areas where ORNL can play a leading role in advancing and shaping the future of structural materials research.

Confirmed external speakers include:

David Matlock (Colorado School of Mines)
David Dunand (Northwestern)
Todd Allen (Michigan)
Simon Ringer (Sydney)
Zack Cordero (Rice)
Amit Misra (Michigan)
Dallas Trinkle (Illinois)
Hussein Zbib (Washington State)
JC Zhao (Maryland)

**Registration link, website and agenda
(with ORNL internal speakers) will be announced shortly.**
